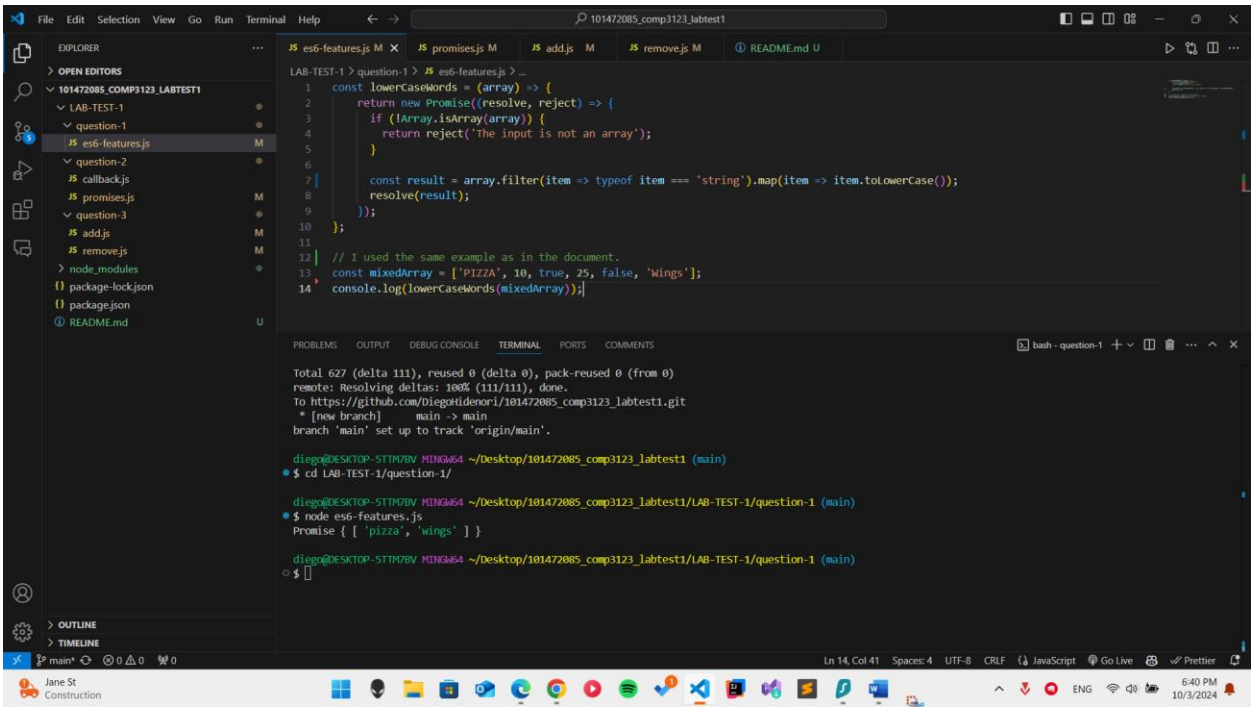
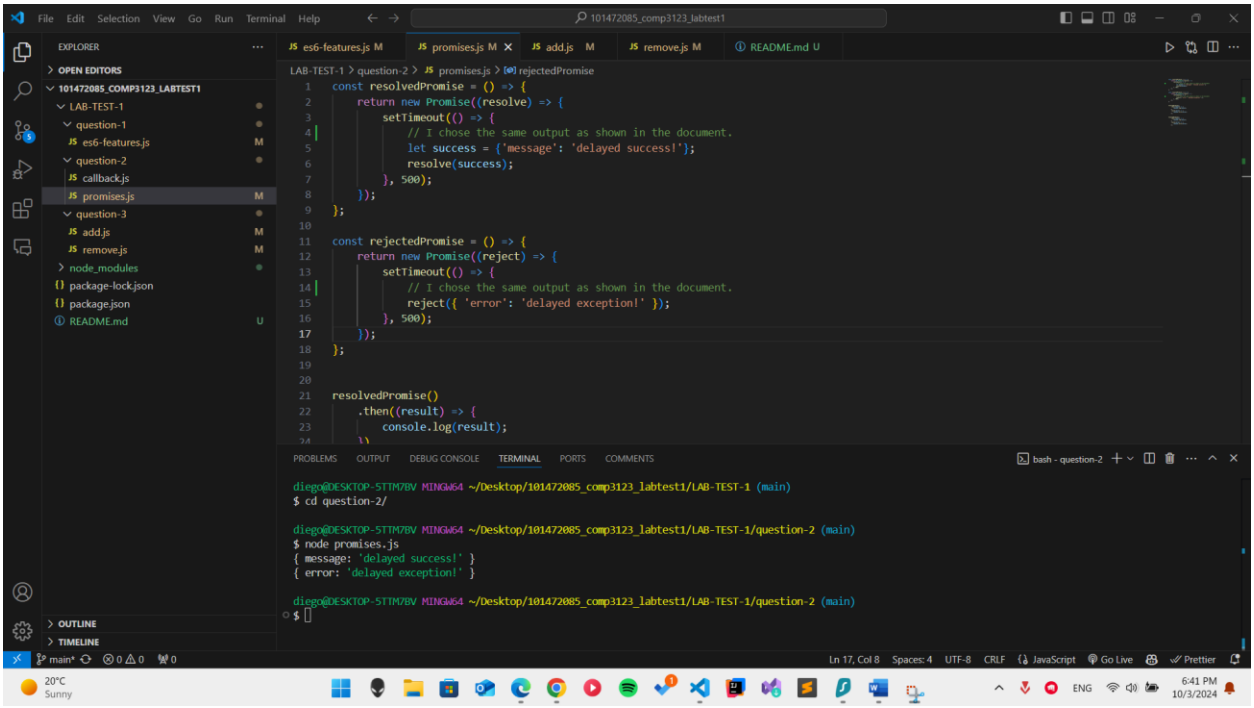
COMP-3123 Lab Test 1 Screenshots





LAB-TEST-1 > question-3 > add.js > createLogFiles

```js
const fs = require('fs');
const path = require('path');
const logs = path.join(process.cwd(), 'Logs');

const createLogFiles = () => {
    if (!fs.existsSync(logs)) {
        fs.mkdirSync(logs);
        console.log(`Created: ${logs}`);
    }
    process.chdir(logs);

    for (let i = 0; i < 10; i++) {
        // I chose the same output as shown in the document.
        const logFileName = `log${i}.txt`;
        fs.writeFileSync(logFileName, `Log file #: ${i}`);
        console.log(`${logFileName}`);
```

LAB-TEST-1 > question-3 > remove.js > removeLogFiles > files.forEach() callback

```js
const fs = require('fs');
const path = require('path');
const logs = path.join(process.cwd(), 'Logs');

const removeLogFiles = () => {
    if (fs.existsSync(logs)) {
        const files = fs.readdirSync(logs);

        files.forEach(file => {
            // I chose the same output as shown in the document.
            console.log(`delete files...${file}`);
            fs.unlinkSync(path.join(logs, file));
        });

        fs.rmdirSync(logs);
        console.log(`Removed: ${logs}`);
